

STRONG IN WOOD!

Demo Timber is well established within the wood industry. We are known for our on-time deliveries of softwood, panels and finished wood products to civil engineering, the packaging industry and the larger timber dealers.

A COMPANY WITH A RICH HISTORY

Demo Timber was founded back in 2005. This firm soon evolved into trendsetting specialist for wood and panels, leading to us being one of the leaders in the timber market. Since the founding of Demo Timber we have had continuing growth, including modern machine park and offering the largest stock of Larch timber.

STATE-OF-THE-ART MACHINERY FOR MADE-TO-MEASURE WOOD

Demo Timber stands for absolute flexibility and customisation. Thanks to our modern machinery and comprehensive customer service, we can offer our customers made-to-measure wood and panels.

Furthermore, we have a large supply of wood that allows us to respond quickly. Whether it is wood planning or certified drenching: you name it, we do it.

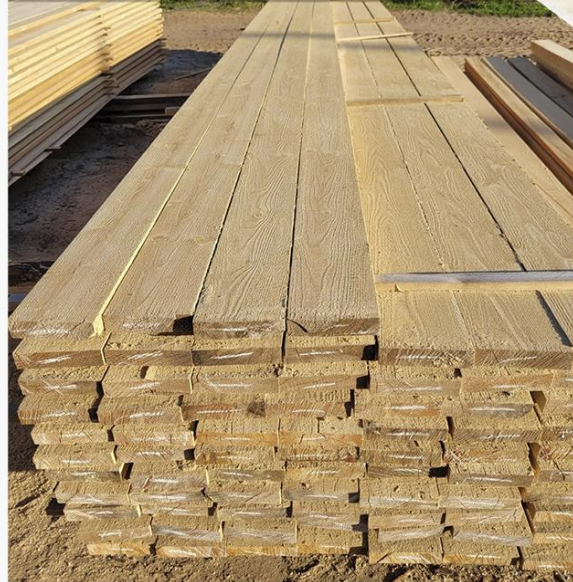

We can supply all types and sizes of wood according to customer requirements, simply send us your request to info@demotimber.com.
